**Arviat Hamlet Council**

**Special Council Meeting # 20-2026**

**Wednesday, August 19, 2026 at 6:00 pm, Hamlet Chambers**

**Present:**

**Mayor, Joe Savikataaq Jr.**

**Deputy Mayor, Gordy Kidlapik**

**Councillor, Darren Price**

**Councillor, Doreen Hannak**

**Councillor, Jimmy Main**

**Councillor, Bridgette Aulatjut**

**Councillor, Vikki Gibbons**

**Councillor, Joshua Curley**

**Absent:**

**Councillor, Nathan Caskey**

**Staff:**

**SAO, John Hussey**

**ASAO, Amber Tattuinee**

**Receptionist, Savia Okatsiak**

1. **Call To Order**
   Mayor Savikataaq Jr. called the meeting to order at 6:00PM

2. **Opening Prayer**
   Led by Deputy Mayor, Mr. Kidlapik

3. **Review and Approval of Agenda**

   **Motion # 160/26**
   **Moved by:** Councillor, Mr. Main
   **Seconded by:** Councillor, Mr. Price
   Be It Resolved that the Hamlet Council approves the agenda for Special council meeting of Wednesday, August 19, 2026

   -Carried-

4. **Declarations of Conflict of Interest**

5. **Operational Matters and Reports**

- Presentation to mayor and council from the Member of Parliament Lori Idlout.
  - Introduced herself and her agenda for her visit in Arviat. Says she had a meeting with the MLA's, Arviat Hunters and Trappers, Aqqiumavvik Society, Canadian Rangers and held a community clinic for those who require assistance in paperwork. Says they also came to visit the SIBS factory, the elder's centre and went on a tour of the gravel sites with foreman Mr. Kablutsiak.
  - Says she is here to listen to the concerns, issues, challenges and priorities raised by mayor and councillors for her to bring back to Ottawa. For example, what she has heard so far are related to the housing shortage and economic inflation.
  - Says she takes back stories shared and concerns raised back to Ottawa to share with parliamentarians so that they better understand the challenges Nunavutmiut face and that the resources that the federal government provides are not enough and why Nunavut deserves more. Says she likes to hear as many stories as she can when she visits Nunavut communities so that she can convey it back to Ottawa to the parliamentarians why investments are not enough or why some pieces of federal legislations might need to be changed.
  - Says she heard many stories and concerns raised and hopes these will help the community of Arviat. Says with mayor and councillors being the leaders of Arviat, she wanted to make sure to hear their concerns and priorities and says she can also do a follow up as well regarding research that can be done, for example, the granular crusher and a new community complex were some of the topics that were talked about. Say's there are staff that can do research on

what federal programs exist so that it can be shared with the Hamlet of Arviat regarding specific project ideas.

- Councillor, Main,
  - Says his thanks to the MP and her assistant for coming to Arviat. Shared his concerns on the community wide food insecurity. Says the new food bank, Niqitaarvik Society has been operating and is doing well but had difficulties transitioning with the previous food bank closing. Says if federal funding can be found for the Niqitaarvik Society that would be fantastic. Says connected to that would be the finalization of the Nutrition North Program. Another major item he motioned at the Hamlet level is the recreation funding, says the Government of Nunavut inadequately funds the recreation department. Says it would benefit the community if there were any federal funding avenues that can be shared or if there are any federal funding available for the recreation department.

- Member of Parliament, Mrs. Idlout
  - Says she can connect the Niqitaarvik Society to the food bank in Iqaluit, where they receive national funding to fund their food bank and to share contact information for the National food bank funding programs that will be very useful for the Niqitarvik Society.
  - Says regarding the nutrition north program, it has been an issue since she became the MP and that she has been pushing hard to have it revamped and is happy with the new minister responsible for the Canadian Northern Economic Development Agency, The Honorable Chartrand. Says she believes minister Chartrand is hearing a lot more clearly what northerners are saying, says Minister Chartrand is working towards reforming the program to make it more about food sovereignty. Says part of the reform is to make it more about food sovereignty and finding ways to have local communities provide food security. Says she's been sharing with them regularly that we need to find ways to support hunters, trappers and fishers the same way the Federal Government supports the farming and agriculture sector. Says Minister Chartrand is open to it. Says with the federal government introducing a new food strategy that is focused on agriculture and farming, she has been pushing for something similar that is specific to the arctic for hunters and trappers. Says she believes there will be good changes in that area of programs.
  - Says regarding recreation funding, there is a new program called "From Playgrounds to Podiums". This new program will have 3 different streams of funding and communities will be able to benefit from those fundings. She will share the information on the "From Playgrounds to Podiums" federal programs with the Hamlet of Arviat.
  - Says she went to visit the community hall and took some photos to share with the parliamentarians to show them the condition of the community hall. Says the community hall is a priority as well.

- Councillor, Mr. Price
  - Says he would like to share concerns regarding health care; recently over the last year, the health centre has been on emergency calls only due to the lack of staffing. Says there are also times where paramedics that have been doing the roles of the nurses due to the lack of nurses at the health centre which is very concerning. With this being said and knowing the root causes, asked what more we can do at a community level to support all industries including the recruitment of nurses in Nunavut and in other areas that have been struggling to be filled since covid days. Asked what can be done to encourage our young people to peruse nursing careers.

- Member of Parliament, Ms. Idlout
  - Says she will look into his concerns. Expressed that the non-insured health benefit program needs improvements along with the medical travel programs. Says she has been working with Premier Main on figuring out ways to add more resources to help to eliminate barriers to accessing healthcare including recruiting healthcare professionals and other professions in healthcare. Says these are some of the priorities of the premier. Says they can deliver the same message at the federal level.

- Mayor, Savikataaq Jr.
  - Says he would like to add to the comments made. Says they would like to specifically see a pilot project in Arviat to hire foreign nurses. Says if Arviat can be the test for the pilot project where foreign nurses are hired to see how it is and if it is a success, it maybe can be expanded into other communities in the region, in Nunavut or in all of Canada. He also mentioned this can be done to other areas where vacant jobs are difficult to fill.
  - Says he believes there is a need for a Service Canada representative in Arviat, given that it is one of Nunavut's larger communities. While a Service Canada representative based in Rankin Inlet occasionally travels to Arviat, residents are not always aware of when the representative will be in the community. He believes having a dedicated Service Canada representative in Arviat would greatly benefit residents who require assistance with submitting applications and accessing Service Canada services.
  - Mentioned that when filing income taxes in the North, there is a Northern Residents Tax Deduction that includes a formula to calculate the cost of living in the North. He recommended that northern residents receive a tax exemption when filing their taxes, as the fixed amount that can be claimed for the cost of living in the North doesn't reflect the reality of the cost of living in the north.
  - Says that communities across Nunavut rely heavily on runways for essential transportation, including medevac services. Says Arviat requires medevac flights two to three times per day, if not more, and there are occasions when two medevac aircraft are in Arviat at the same time.

- Says currently, only two communities, Resolute Bay and Iqaluit, have runways equipped with specialized equipment capable of accommodating certain types of aircraft. Requested that larger communities, and ideally all communities where feasible, be provided with similar specialized runway equipment. This would improve flight scheduling, particularly during periods of poor weather, and allow a wider range of aircraft to safely land in more communities.

- Member of Parliament, Ms. Idlout
  - She says she supports the idea of the pilot project, which would bring in foreign workers to fill vacant positions that are difficult to staff.
  - Regarding the Northern Residency Tax Deduction, she said that, since crossing the floor to the Liberal Party, she has greater access to ministers and other Members of Parliament. She noted that the larger caucus also has several smaller caucuses, and she has joined a number of them. These caucuses generally meet weekly, providing her with regular opportunities to raise and focus on issues affecting Nunavut.
  - She said that this summer, the three territorial MPs are working together to develop a pre-budget submission. A survey is available through MP Idlout's Facebook page, and she encouraged staff, the Mayor, and councillors to review the survey and submit their own pre-budget submissions using the link. She also noted that the three territorial MPs are participating in the federal pre-budget consultations.
  - She said she has raised several priorities within the caucus, including the continuation of the Indigenous Community Infrastructure Fund (ICIF), improvements to the Northern Residents Tax Deduction, increased infrastructure funding, and the continuation of the Oceans Protection Plan, which is scheduled to end in March. She emphasized that Nunavut benefits significantly from the Oceans Protection Program and said efforts are underway to extend it.
  - Regarding the Northern Residents Tax Deduction, she said that, in addition to the requests put forward by the Government of Nunavut, there is a need to index the deduction to the cost of living in the Arctic. Currently, the deduction is indexed only to inflation, which she argued does not adequately reflect the significantly higher cost of living in the North.
  - She also referenced the indexing of the Canada Child Tax Benefit (CCTB) and the Canada Groceries and Essentials Benefit (CGEB), noting that they had been told their requests were asking for too much. She argued, however, that the current indexing of these benefits is insufficient given the high cost of living and the significant needs of Nunavut residents.
  - She said she hopes the priorities submitted will be addressed and that changes to the Northern Residents Tax Deduction will be seen soon. She reiterated that she will continue to advocate for these priorities.

- Councillor, Mrs. Hannak
  - Says she would like to raise concerns regarding the sports and recreation at the schools. Says there are students who try for sports tryouts but are forced to find funds on their own or are faced with barriers regarding receiving funding. Says she would like to see more funds granted to sports Nunavut or to the Government of Nunavut so that there is easier access to funding for students who tryout for sports such as the Arctic Winter Games and territorial tournaments. Says she believes this would improve the student's willingness to participate in sports and allow more students to participate in sporting events.
  - Raised concerns regarding the long back haul with medivacs, particularly those who are in palliative care and are waiting to go home to spend their last moments with loved ones. Says in some instances, patients must wait for a number of days before they are able to fly back home. Says she would like to see improvements within this area and to have more funding available for the Department of Health particularly regarding the availability of medivacs.

- Councillor, Mrs. Gibbons
  - Asked if the Jordans Principal grocery fund will be coming back or anything similar.

- Member of Parliament, Ms. Idlout
  - Says this is a question that many other communities have asked. Says it has been a struggle to persuade the current minister that the continuation of the JP grocery fund is crucial for Nunavutmiut. Says the response that they have been getting is, they are working with Inuit organizations. She says she has asked her staff to set up a meeting with the CEO of NTI do discuss their meeting with the Minister of Indigenous Services of Canada.
  - Says she has talked about ICFI as frequently as she has talked about the housing situation to the caucus. Says she keeps telling them how, as much as we appreciate the focus on arctic sovereignty and arctic security, which are going to be major long term capital projects, she keeps reminding the caucus that there are immediate needs that need to be met such as housing and food security.

- SAO, Mr. Hussey
  - Mr. Hussey noted that Arviat has a population similar in size to Rankin Inlet, yet there is no full-service bank in Arviat. Says that some residents have to incur the cost of flying to Rankin Inlet and back simply to have a document signed, which can be particularly expensive and burdensome for Elders.
  - Mr. Hussey noted that with the Inuit Nunangat University expected to come to Arviat within the next four years, the need for full-service banking in the community will only increase. However, he said there has been little progress toward establishing a full-service bank in Arviat.
  - Asked how best to approach this issue and what steps could be taken to bring a full-service bank to Arviat.

- Member of Parliament, Ms. Idlout
    - Says this is a difficult question to answer and says she understands that there are many communities that are trying to get banks established in their communities as well. Says she went on tour of the Northern Store and saw that they are trying their best to provide banking in the best way they can for the community. Says she agrees with Mr. Hussey that there is a need for a bank in the community.

- SAO, Mr. Hussey
    - Mentioned that there is an impact on climate change on the community hall where the arena is closing earlier in the spring and opening later in the fall time due to the warm weather. Says this is vital for the community as there are many that participate in hockey. Asked if an artificial ice would fall under the "playgrounds to podiums" funding program.

- Member of Parliament, Ms. Idlout
    - Says she will share the information regarding the funding program from "playgrounds to podiums" in the coming weeks.

- SAO, Mr. Hussey
    - Says there is a trend where elders who own their own homes are struggling especially in the areas of electricity and fuel costs. Says the increase in the Canada Pension Plan is not enough to cover the cost of fuel and electricity due to economic inflation which is causing elders to give up their homes and move into public housing.

- Mayor, Mr. Savikataaq Jr.
    - Mentioned that Inuit communities may not be accustomed to having wills. Requested that resources or opportunities be made available for community members to prepare wills, helping to prevent setbacks and delays for families in the future.

- Councillor, Mrs. Hannak
    - She says she would like to add to the Mayor's comments regarding estates. She says there should be a dedicated position or service to assist individuals with wills and estates. She notes that while some individuals have wills, others do not, and dealing with a loved one's estate after their passing can be a significant amount of work. She says the process can also involve hiring a lawyer and going through the courts, which can be very expensive and difficult to navigate.

- Member of Parliament, Ms. Idlout
  - Says the public trustee is there to help in these situations.

- Councillor, Mrs. Hannak
  - She says the Public Trustee only provides the necessary documents to be completed but does not assist with the process of filing estate claims. She says there is currently a backlog of applications, with some taking up to two years to process, resulting in a very long wait time.

- Councillor, Mr. Main
  - Touching on the Mayor's comments regarding Service Canada, says the community would benefit from having a federal department located within the community, which would also create additional employment opportunities for residents.

- Member of Parliament, Ms. Idlout
  - She says that, based on her own experience as a lawyer, unfortunately, it is very common for estates to take a long time to resolve. She explains that the delays are not solely due to the Public Trustee but can also result from other aspects of the process, including closing accounts and settling the affairs of the deceased.
  - She also believes it would be helpful to educate community members about the process of dealing with wills and estates, emphasizing that this is not an issue that falls on one person alone. Says it is common for estates to take several years to be fully finalized.

- Councillor, Mr. Price
  - Says Arviat is the fastest-growing community in Nunavut, with a large and growing youth population. He notes that many youths are struggling with a range of issues, including mental health and school attendance, challenges that are also affecting many other communities across Nunavut.
  - He wanted to bring the issue to the forefront and asked whether there are any supports or resources that the MP's office could offer to help promote school attendance and encourage a more positive attitude toward education. He believes that changing attitudes and encouraging youth to stay in school will have long-term benefits for the community. He also welcomed initiatives such as breakfast programs and improved food security for students.

- Member of Parliament, Ms. Idlout
  - Says one of the challenges she experiences is that her house sittings often take place while schools are in session, while her community visits occur when schools are closed. This creates a barrier to engaging with students directly in schools. When she is fortunate enough to visit high schools, she speaks to students about the importance of education and draws on her own experiences to make the message meaningful.
  - She shared her personal experiences to demonstrate that, even when faced with difficult circumstances, it is possible to overcome hardships through hard work, perseverance, and education. She emphasizes that regardless of the challenges someone has experienced, they can still overcome them and become a success story.
  - She also stressed that the strength and resilience of Inuit people, highlighting the importance of listening to Elders and working together to support one another. She encouraged people not to be afraid to ask for help when needed, whether it relates to mental health, education, or other areas of support.

## 6. Adjournment

**Motion # 161/26**
**Moved by:** Councillor Mr. Main
**Seconded by:** Councillor, Mr. Price
Be It Resolved that the Hamlet Council approves to adjourn the Special Meeting of Wednesday, August 19, 2026 -Special Council Meeting at 7:03PM.

-Carried-

Mayor Joe Savikataaq Jr.

SAO John Hussey
